SUMMARY

Data Analyst at Betclic Group, promoted twice since joining in 2022 (Growth Executive, Growth Project Manager, Data Analyst). Combines deep marketing and data business knowledge: paid acquisition across Social, Display, Search and Partnerships in 10+ countries, and dashboards used by ~80 business stakeholders. Expert in Excel, now building dashboards and automations with generative AI. Seeking AI-focused roles at the intersection of marketing, data and business.

AI & AUTOMATION

- Build dashboards as AI-assisted HTML applications, evolving from expert-level Excel models to generative-AI workflows
- Automated numerous recurring reporting and analysis workflows with generative AI
- Pair deep marketing and data business knowledge (acquisition, segmentation, LTV, cohorts) with AI to deliver faster, sharper analysis
